

Symbol-Coded Answer Key

Sometimes a word has overlapping chunks. For example, a vowel chunk may overlap with a Bossy *r* chunk (*heard*), or a consonant chunk may overlap with an ending (*really*). In the answer key, we have tried to remain consistent with the focus of each lesson. In lessons with multiple chunks, we marked vowel chunks before Bossy *r* chunks, but Bossy *r* chunks before consonant chunks.

If the student chooses a different chunking pattern than the one marked in the answer key, please do not consider it incorrect. Instead, take a moment to talk about the word and the overlap of chunks. You might ask the student which letter pattern he thinks would be most helpful for him to remember and let him mark that one. Remember that the goal is to create a visual memory for non-phonetic words.
